## ATHENS . Pole Mounted Luminaire

The distinctive Euro-form of ATHENS is a tasteful blend of curves punctuated by the functional transition from luminaire to pole. Luminaire housing, lens frame, and integral fitter are die-cast aluminum, providing sharply defined detailing. Hinged door with tempered glass lens is gasketed to provide positive seal to the housing. Single quarter-turn fastener allows for tool-less access for relamping within the sealed optical chamber. Asymmetric reflector produces full cut-off distribution. Luminaire is available in two sizes with pole heights scaled accordingly. Round straight pole with flush handhole is available in steel or aluminum. Steel pole is hot-dip galvanized prior to being finished in finely textured paint. Base cover is spun aluminum. All hardware is stainless steel. Standard colors; matte silver grey metallic or graphite grey. Special colors available. CSA certified for Wet Locations.

Model	Pole	Lamp
ATH640P	15' Round Straight	150 MH / 100 MH / 70 MH
ATH860P	20' Round Straight	250 MH / 150 MH
