## CAMPONE . Pole Mounted Luminaire

CAMPONE captures European styling with design simplicity and graceful form. The slender conical luminaire with acrylic lens tapers down to match the pole diameter with a subtle reveal at the transition. Cast aluminum housing with integral fitter secures to the pole top tenon with regressed setscrews. The faceted reflector is formed from high-reflectance pre-anodized aluminum with a textured micro-surface to efficiently distribute light and minimize brightness. Available light distributions include symmetric and asymmetric light patterns. A decorative fascia surrounding the reflector is perforated stainless steel or may be specified in color to accent the luminaire dayform. Straight round pole with flush handhole may be steel or aluminum. Steel pole is hot-dip galvanized prior to being finished in finely textured paint. Standard colors; matte silver grey metallic or graphite grey. Special colors available. All hardware is stainless steel. CSA certified for Wet Locations.

Model	Pole	Lamp
CP810	10' / 12' Round Straight	150 MH / 70 MH / 140 COS / 90 COS / 60 COS / LED

## CAMPONE . Wall Mounted Luminaire

CAMPONE captures tasteful European styling with design simplicity and graceful form. The slender conical luminaire with acrylic lens tapers down to match the tenon base with a subtle reveal at the transition. Cast aluminum housing with integral fitter secures to the wall bracket with regressed setscrews. The faceted reflector is formed from high-reflectance pre-anodized aluminum with a textured micro-surface to efficiently distribute light and minimize brightness. Available distributions include symmetric and asymmetric light patterns. A decorative fascia surrounding the reflector is perforated stainless steel or may be specified in color to accent the luminaire dayform. Luminaire and bracket are finished in finely texture paint. Standard colors; matte silver grey metallic or graphite grey. Special colors available. All hardware is stainless steel. CSA certified for Wet Locations.

Model	Mounting	Lamp
CP810	Wall	150 MH / 70 MH / 90 COS / 60 COS / LED
