LEDIA LF O D . LED Illuminating Tile . Exterior In-Ground Use

The LEDIA LF series transforms night environments into colorful settings - walkways and public spaces develop atmosphere and interiors inherit structure. Luminaire is available in four sizes. Specially coated tempered glasstiles diffuse light uniformly across the surface. Functional anti-slip squares applied to the surface also create interest by adding a unique three-dimensional effect to the tiles. The lens is bonded to the stainless steel luminaire housing providing a sealed enclosure. LEDIA mounts into a recessed stainless steel sub-frame, which serves as a cable vault for making power connections. Remote 12V driver is required. RGB model requires color sequencer or 3-channel dimmer. LED colors; red, blue, green, amber, white or RGB. Listed for wet locations.

Model	Dimensions	Wattage
LEDIA-LF-OD-04	3.7" x 3.7"	4
LEDIA-LF-OD-08	7.7" x 7.7"	9
LEDIA-LF-OD-12	11.6" x 11.6"	12
LEDIA-LF-OD-16	15.6" x 15.6"	16
LEDIA-LF-OD-04 RGB	3.7" x 3.7"	3
LEDIA-LF-OD-08 RGB	7.7" x 7.7"	9
LEDIA-LF-OD-12 RGB	11.6" x 11.6"	12
LEDIA-LF-OD-16 RGB	15.6" x 15.6"	23

□ 3.7" / 7.7" / 11.6" / 15.6"
