MONTEGO . Pole Mounted Luminaire

MONTEGO's timeless styling blends with a broad range of architecture. Two sizes are available to meet diverse proportional requirements. The clean look of the cast aluminum housing contrasted against the curved aluminum shade and dome top creates a classically contemporary appearance. Integrated pole top fitter anchors stainless steel rods to support the curved shade and cast top cap. The cylindrical clear acrylic lens extends through the shade forming an aperture to subtly highlight the luminaire night form. External louvers mimic the curvature of the shade profile, while functioning to reduce brightness. LED model features translucent light shaping diffusing film inside the cylindrical lens. Optional internal louvers for symmetrical or asymmetrical distributions provide added light control for metal halide models. Signature stepped pole with flush handhole and double welded transition is available in steel or aluminum. Steel poles and mounting brackets for twin mount are hot-dip galvanized prior to being finished in high quality paint. Base cover is spun aluminum. All hardware is stainless steel. Standard colors; matte silver grey metallic or black. Special colors available.  Listed for Wet Locations.

Model	Pole	Lamp
MT660	10' w/ 3' Step	LED / 150 MH / 100 MH / 70 MH
MT660	12' w/ 4' Step	LED / 150 MH / 100 MH / 70 MH
MT800	10' w/ 3' Step	LED / 200 MH / 150 MH
MT800	12' or 14' w/ 4' Step	LED / 200 MH / 150 MH
