LEDIA LL-W . LED Recessed Wall Luminaire

The LEDIA recessed wall series adds definition to interior and exterior spaces by creating colorful architectural accents. The flush mounted glass strips are available in four lengths. Specially treated tempered glass lens diffuse light evenly across the surface. Luminaire mounts into recessed stainless steel backbox. LED colors are available in red, blue, green, amber, white or RGB. Remote 12v DC LED driver is required. Color-changing model requires 3-channel dimmer or color sequencer. Listed for wet locations.

Model	Dimensions	Wattage
