VALENCIA . Pole Mounted Luminaire

The VALENCIA is defined by its simplistic styling. Two sizes are available to meet diverse proportional requirements. The cast aluminum housing with integrated pole top fitter anchors stainless steel rods to support the spun aluminum shade. Cylindrical lens is clear acrylic. LED model features translucent light shaping diffusing film inside the cylindrical lens. Internal louver with white finish for metal halide models is standard and available for symmetric or asymmetric distributions. Signature stepped pole with flush handhole and double welded transition is available in steel or aluminum. Steel pole is hot-dip galvanized prior to being finished in high quality paint. Base cover is spun aluminum. All hardware is stainless steel. Standard colors; matte silver grey metallic or black. Special colors available.  Listed for Wet Locations.

Model	Pole / Style	Lamp
VC600	8' or 10' w/ 3' Step	LED / 70 MH / 50 MH
VC800	10' w/ 3' Step	LED / 200 MH / 150 MH
