RESIDENZA W / SW . Pole Mounted Luminaire

The simple cylindrical form of RESIDENZA is available in two models for pedestrian scale wall mount applications. Cast aluminum housing with integral fitter houses electrical components. Choice of optics includes clear acrylic lens with faceted reflector in symmetric or asymmetric distributions or matte acrylic lens only. Optics for LED model are mounted at the top of the clear lens and is available with a Type II or Type III distribution. Lens twists and locks onto housing for tool-less relamping. Cleanly styled mounting arm is fabricated aluminum. All hardware is stainless steel. Standard colors; matte silver grey metallic or graphite grey. Special colors available.  Listed for Wet Locations.

Model	Lens	Lamp
RS200	Clear	70 MH / 39 MH / LED
RS200S	Matte	70 MH / 50 MH / 39 MH
