RESIDENZA D / SD . Pole Mounted Luminaire

The twin-mount cylindrical forms of RESIDENZA transition seamlessly to the square split-profile pole. Cast aluminum housing with integral fitter houses electrical components. Lens is clear acrylic and includes optics for symmetric and asymmetric distributions. Matte acrylic lens is available on request. Lens twists and locks onto housing for tool-less access. Pole with flush handhole is finished in finely textured paint. All hardware is stainless steel. Standard colors; matte silver grey metallic or graphite grey. Special colors available.  Listed for Wet Locations.

Model	Pole	Lens	Lamp
RS200D	12'	Clear	LED / 70 MH / 39 MH
RS200SD	12'	Matte	LED / 70 MH / 39 MH
