SERA SG . Pole Mounted Luminaire

Gently arcing pole complements the free-form styling of SERA to create a harmonious appearance. The die-cast aluminum housing is paired with appropriately scaled pole heights and produces a full cut-off asymmetric distribution pattern. The luminaire may be tilted in 5° increments up to 15°. Formed aluminum door latch fits flush to the housing, providing tool-less access to the optical compartment. Frameless tempered glass lens and one piece profile silicone gasketing provide sealed optics when closed. Curved round tapered steel pole is hot-dip galvanized prior to being finished in finely textured paint. All hardware is stainless steel. Standard colors; matte silver grey metallic, dark grey, graphite grey, matte black, or dark bronze. Special colors available.  Listed for Wet Locations.
