## LINEA S . Illuminating Bollard with True Amber LED

The slender profile of LINEA S complements contemporary architecture with well-proportioned styling and a minimalist form. The fabricated aluminum bollard is available as a single or twin mount luminaire in three different heights to meet varying scale requirements. Concealed mounting minimizes the footprint. The fully shielded luminaire emits zero uplight, is suitable for LEED zones 1 through 4, and is Dark Sky compliant. The light engine consists of an array of true amber LEDs arranged to provide a wide forward throw asymmetric distribution. Application-specific amber LEDs have dominant wavelength of 590-595 nanometers. All hardware is stainless steel. Standard colors; matte silver grey metallic, dark grey, or graphite grey. Special RAL colors available.

Model	Height	Mounting	Lamp
LN900S	36"	Single / Twin	True Amber LED
LN760S	30"	Single / Twin	True Amber LED
LN610S	24"	Single / Twin	True Amber LED
