### PARCO . Illuminating Bollard with True Amber LED

PARCO illuminates pathways with gracefully iconic styling and state of the art LED technology. The compact luminaire housing integrates into the gently arched bollard shaft for a semi-regressed appearance. PARCO is crafted from 6061-T6 aluminum with subtle design features such as concealed anchor bolts and absence of visible welds. The fully shielded luminaire emits zero uplight, is suitable for LEED zones 1 through 4, and is Dark Sky compliant. The light engine consists of an array of true amber LEDs arranged to provide a wide forward throw asymmetric distribution. All hardware is stainless steel. Standard colors; matte silver grey metallic, dark grey, or graphite grey. Special RAL colors available. CSA certified for Wet Locations.

Model	Height	Lamp
PC900	37.5" Curved Rectangular	True Amber LED
