

DESCRIPTION

Corvus' styled lines bring casual formality to outdoor environments with backed or backless seating. Slats for contoured seat and back are weather-resistant pressure impregnated European Ash. Wood weathers to silvery finish. Optimal Kambala (Iroki) wood slats with golden brown color are available. Cast aluminum frame and extruded 6060 aluminum support elements are finished in finely textured paint. Contact factory for custom lengths. All hardware is stainless steel. Standard colors; dark grey, graphite grey, or matte silver grey metallic. Special colors available.

			DB Dark Bronze
			CC Custom RAL Color

SPECIFICATIONS

SEAT

European Ash slats measure 2.2" wide x 1.6" thick. Edges are softly radiussed and closely spaced along the contoured support frame for user comfort. Wood is planed to shape and rough-sanded prior to fine-sanding. Slats are then pressure treated with CCA-free preservative to achieve weather and decay resistance, then given final sanding. Wood weathers to a silvery grey. Slats are attached to side frames and steel center supports with tamper-proof stainless steel hardware. African Kamabala (Iroki) slats are optional and available upon request.

FRAME

Individual cast aluminum side frames are composed of integral legs and back support. Side frames with square profile are joined together by two 0.2" thick extruded aluminum tubes and secured with stainless steel socket head bolts.

MOUNTING

Surface mounted bench is secured to anchor bolts. Attachment points are located on the inner side each leg. Mounting hardware is provided.

FINISH:

Metal components are ultrasonically cleaned prior to painting. Standard finish is finely textured dark grey, graphite grey, or matte silver metallic. Special colors available on request.

SUSTAINABILITY

Wood is harvested from plantations using sustainable cultivation practices. All materials are 100% recyclable.

WARRANTY

Limited product warranty period is three years.

DIMENSIONS

All dimensions are shown in inches unless otherwise noted.
